Ely Cathedral

If you are planning to extend your stay in Cambridge we would suggest a visit to picturesque Ely Cathedral on Friday.

Ely Cathedral, has its origins in 672AD when St Etheldreda built an Abbey Church. The present building dates back to 1083, and cathedral status was granted it in 1109. Until the reformation it was the Church of St Etheldreda and St Peter, at which point it was refounded as the Cathedral Church of the Holy and Undivided Trinity of Ely, continuing as the principal church of the Diocese of Ely, in Cambridgeshire, England. It is the seat of the Bishop of Ely and a suffragan bishop, the Bishop of Huntingdon. Architecturally it is outstanding both for its scale and stylistic details. Having been built in a monumental Romanesque style, the galilee porch, lady chapel and choir were rebuilt in an exuberant Decorated Gothic. Its most famous feature however is the central Octagonal tower, with lantern above, which provides a spectacular internal space and, along with the West Tower, gives a unique exterior landmark that dominates the surrounding landscape.
